

ALL STAR HEALTH SPINE & SPORTS CARE

Dear Valued Patient,

All Star Health (ASH) values the trust you place in us for your care. As you are aware the COVID-19 pandemic is impacting many in our community. We take the health of our patients and employees seriously and have implemented enhanced preventive measure to ensure a safe care environment. We have taken steps to mitigate the spread of COVID-19 across all of our All Star offices, including taking employees' temperatures twice daily and answering screening questions before entry, requiring employees and patients to wear face masks in all areas, increasing the cleaning and disinfecting regimen, and putting in place measures to help employees and patients socially distance in our offices. As has always been the case, we require employees to regularly and thoroughly wash their hands and avoid touching their face. We will continue updating our procedures as new guidance is released with recommended practices.

Be assured that ASH takes your health and the health of your families seriously and is continuing to monitor guidance from the CDC, OSHA, the Maricopa County Public Health Department, and the Arizona Department of Health Services. As new guidance is released from these regulatory agencies, we will continue to take the steps recommended to mitigate the spread of COVID-19, please visit the CDC's website or the Maricopa County Health Department's website. Both websites provide helpful information about COVID-19.

Thank you for your understanding in these challenging times. We are honored to be selected as your care provider.

Please reach out to us by phone or by emailing us with your questions at info@all-star-health.com.

Warm regards,

All Star Health and Administration
